

# BLOSSOM COFFEE ROASTERS

EQUIPMENT PARTNERS 2021

# QUALITY EQUIPMENT IS AT THE HEART OF WHAT WE DO.

---

We are proud to be an official partner for the industry's leading manufacturers.

With over 20 years of experience working in the coffee industry, our team are perfectly positioned to be able to consult on your needs and build bespoke packages to suit all budgets, business types and aesthetic preferences, ensuring that our customers have the perfect solution for creating world class coffee.

Our range has been kept purposefully small and considered, fostering relationships with only the best manufacturers to ensure we can offer you the the finest solutions the industry has to offer.

We also carry a range of grinders, filter brewers, hot water boilers and accessories to ensure that we have everything you need to start making exceptional coffee from day one. We only supply equipment we have first hand experience using and trust to stand up to the demanding conditions of a busy cafe environment and have been thoroughly quality checked in our training room.

## Showroom

---

Located just a stone's throw away from Manchester Victoria train station in the city centre, our showroom is designed to give you the opportunity for hands on experience with our machines before you buy and serves as our home in Manchester to welcome wholesale partners and customers. Please note that visits are by appointment only.

## Service & Support

---

Our network of approved specialist engineers provide all aspects of machine care from full service maintenance to reactive callouts, simple repairs, spare part replacements and installations.

Once you are up and running our in-house technical support is always here for you. All our machines are provided with instruction manuals that address the most common minor issues and frequently asked questions, including details about cleaning tasks and maintenance.

## Leasing

---

We want to help you invest in the best quality kit without compromise, which is why we offer a flexible 'lease to buy' service to our wholesale customers via our partnership with Oakfield Leasing, a specialist leasing company based in Altrincham. Lease to buy means paying an agreed, fixed monthly repayment on our products, and at the end of the contract you own them outright.

## Getting in touch

---

If you would like to find out more details about our lease to buy scheme, request a quotation, or require specification sheets for any of our product range, please get in touch at: [info@blossomcoffee.co.uk](mailto:info@blossomcoffee.co.uk)

## SLAYER *Make Coffee Better*

Hand-built in Seattle, Slayer machines are known worldwide for their signature style, excellent build quality, and of course, their unique and rewarding approach to espresso brewing. We feel these are machines for the coffee curious, those who want to explore the endless possibilities of espresso and who want to showcase the wide spectrum of taste in speciality coffee.

*"I have always admired the beauty of Slayer espresso machines but have only recently discovered how amazing they really are in reality! Since I have started brewing on Slayer espresso machines, I have genuinely been consistently brewing the best espresso I ever have been able to, and every coffee I try is elevated to levels I didn't realise possible."*

**Dan Fellows**

*Double World Coffee in Good Spirits  
Champion & UK Barista Champion*

Slayer Espresso Single Group

Slayer Steam LPx

**LA MARZOCO**

handmade in florence

Adorning the counters of some of the best restaurants, cafes and bars around the world, these intuitive machines are built for baristas who want to serve coffee consistently and at all volumes. La Marzocco are at the heart of the coffee community, whether that's from developing new technology such as built-in scales and "straight in" portafilter technology or from the workhorse machines serving thousands of coffees a day without skipping a beat.

*"La Marzocco's purpose is to apply our 93+ years collective experience and passion to produce the finest specialty coffee equipment, providing uncompromised experiences and allowing end users to build businesses of longevity and impact."*

**Jesse Dodkins**  
LM Sales Coordinator, UK & Ireland

Linea Classic

Modbar Espresso AV

**eVERSYS**  
swiss espresso systems

true espresso with a touch

Speciality coffee is not often synonymous with super automatic machines. For a long time this side of the industry lagged behind and felt dominated by machines that produced a poor quality cup of coffee against what we could produce with a more traditional machine.

Eversys have changed the game. With the ability to "dial in" coffees, ensuring the coffee is made to an exacting recipe, these machines are perfect for fast service environments, areas where staff of all ability will be required to make and serve coffee and those tight on counter space.

*"We knew that coffee would be a great opportunity for us, but we struggled to find a solution that had everything we needed. The Eversys e'series ticked every box."*

**James Drakeo**  
Operations Manager Hotel Chocolat
